Brennen Hayle

Laboratory Assistant

Shakopee, Minnesota | April 2016

Midwest Industrial Coatings, Inc. would like to welcome Brennen Hayle as our new Laboratory Assistant! Brennen comes to us from Alternative Technologies, Inc. where he worked as a technician. He chose to continue down this career path and we were fortunate enough to bring him on board here at MICI.

Brennen graduated from the University of Wisconsin River Falls in the spring of 2015 with a Bachelor's degree in Biology and a minor in Chemistry.

On the job, Brennen is passionate about making a difference and contributing wherever he is needed. He has great organizational skills and is able to learn new things quickly which he feels will help him transition into his new position. He welcomes a challenge and is excited to contribute to the team in different ways and mix up his daily routine.

Brennen currently lives in Rosemount, MN but he's hoping to move to the Prior Lake/Shakopee area with a college friend. He is a very "outdoorsy" person and loves swimming, boating, and basketball. He's always been interested in cars,

couldn't live without exercising, and loves watching movies when he isn't enjoying the great outdoors.

He used to umpire for elementary-aged children and would like to coach his own team one day to teach kids the team mentality. He can proudly say that he received an academic letter in high school and won the Pinewood Derby in Boy Scouts.

Brennen is a calm person who rarely gets mad. He's easy to talk to and loves making new friends so we hope everyone will take a moment to chat when they see him! Welcome to the team Brennen, we are happy to have you on board!

Midwest Industrial Coatings, Inc. is a privately held company established in 1985 and based in Shakopee Minnesota. MICI is a Specialty Coatings Solutions Provider. In addition to supplying coatings, MICI provides Tier I services to its customers and suppliers throughout North America, and the Pacific Rim. MICI manages customer supply chains, compliance efforts, application processes, color development and R&D functions in industries such as Agriculture, Automobile Sub Supply, Construction, Marine, Recreational Vehicle, General Industrial and Heavy Machinery.
